

Centimetre City

Measuring Height

Height means we are going to measure how tall things are.

Keep using the words long/short, longest/shortest and tall/short to describe your buildings.

They are all words that link to height.

Can you create your own cm city?

Use different coloured paper
Use a cm ruler and draw your own
buildings

Measure the height of your buildings in cm

Try and make them different heights to
create a city look!

Decorate your buildings!

HAVE FUN!

Challenge

Can you make one building **double** the height of another building?

Example: You could draw a building **3cm** tall and one **6cm** tall.

Can you draw one building **half** the height of another building?

Example: You could draw a building **10cm** tall and one **5cm** tall.
