

Varied Fluency

Step 14: Subtract with 2-Digits 2

National Curriculum Objectives:

Mathematics Year 2: (2C2b) [Add and subtract numbers using concrete objects and pictorial representations, including: two two-digit numbers](#)

Mathematics Year 2: (2C4) [Solve problems with addition and subtraction using concrete objects and pictorial representations, including those involving numbers, quantities and measures; applying their increasing knowledge of mental and written methods](#)

Differentiation:

Developing Questions to support subtracting 2-digit numbers from 2-digit numbers. One exchange; each question includes Base 10 within a place value chart.

Expected Questions to support subtracting 2-digit numbers from 2-digit numbers. One exchange; includes place value counters, place value charts, numerals and some use of column method.

Greater Depth Questions to support subtracting 2-digit numbers from 2-digit numbers. One exchange; includes bar models, part whole models and questions presented in a linear format. Numerals and words used.

Subtract with 2-Digits 2

1a. Work out the answer for the following calculation: $86 - 38 =$

VF

Subtract with 2-Digits 2

1b. Work out the answer for the following calculation: $25 - 16 =$

VF

2a. A child had 53 marbles but lost 27. How many has he got now?

VF

2b. A shop had 34 cakes but sold 19. How many are left in the shop?

VF

3a. True or false?

37

VF

3b. True or false?

6

VF

4a. Use the place value grid to find the correct answer.

27

28

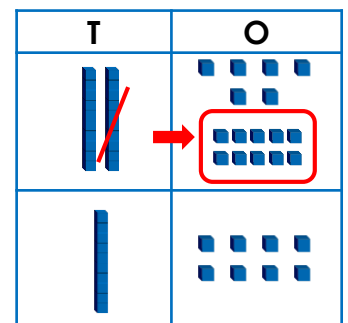

VF

4b. Use the place value grid to find the correct answer.

8

18

VF

Subtract with 2-Digits 2

Subtract with 2-Digits 2

5a. Work out the answer for the following calculation: $52 - 34 =$

VF

5b. Work out the answer for the following calculation: $74 - 26 =$

VF

6a. A farmer had 42 apples but lost 16. How many has he got now?

VF

6b. A wizard had 84 wands but 29 wands snapped. How many has he got left now?

VF

7a. True or false?

VF

38

7b. True or false?

VF

14

8a. Complete the column subtraction then show the exchange on the grid.

VF

8b. Complete the column subtraction then show the exchange on the grid.

VF

Subtract with 2-Digits 2

Subtract with 2-Digits 2

9a. Work out the answer for the following calculation:

ninety-three	
28	?

VF

9b. Work out the answer for the following calculation:

57	
twenty-nine	?

VF

10a. A teacher had seventy-two pencils, but lost 37. How many has she got now? Complete the part whole model.

VF

10b. A gardener grew sixty-four flowers, but cut 49. How many are still growing? Complete the part whole model.

VF

11a. True or false? The answer is 32.

forty-one – nineteen =

VF

11b. True or false? The answer is 16.

thirty-three – seventeen =

VF

12a. Complete the column subtraction for the given calculation.

sixty-two – forty-eight =

–		

VF

12b. Complete the column subtraction for the given calculation.

ninety-five – thirty-seven =

–		

VF

Varied Fluency Subtract with 2-Digits 2

Developing

- 1a. **38**
2a. **26**
3a. **False – 27**
4a. **27**

Expected

- 5a. **18**
6a. **26**
7a. **True**
8a. **27. One ten should be crossed out and ten ones drawn.**

Greater Depth

- 9a. **65**
10a. **72 in the whole part at the top and 37 and 35 in each of the parts.**
11a. **False – 22**
12a.

	⁵ 6	¹ 2
–	4	8
	1	4

Varied Fluency Subtract with 2-Digits 2

Developing

- 1b. **9**
2b. **15**
3b. **True**
4b. **8**

Expected

- 5b. **48**
6b. **55**
7b. **False – 15**
8b. **15. One ten should be crossed out and ten ones drawn.**

Greater Depth

- 9b. **28**
10b. **64 in the whole part at the top and 49 and 15 in each of the parts.**
11b. **True**
12b.
