### 21.1.21

## Length Investigation

Find 10 objects in your house and measure them accurately.
If you have a tape measure you could have a go at using that to measure bigger things, otherwise just use your ruler.
Then fill in the table below and have a go at converting the different lengths.

| Name of Object | Length in mm | Length in cm | Length in $m$ |
| :--- | :--- | :--- | :--- |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
|  |  |  |  |
