LO: I can answer questions about the Venus Fly Trap.

1. What is an electrical impulse?

2. Why do you think the Venus Fly Trap needs to make itself attractive?

3. What do you think would happen if the Venus Fly Trap didn't catch its prey this way?

4. How does the Venus Fly Trap know its prey is there?

5. Summarise how the Venus Fly Trap catches its prey in a few sentences.

Remember to answer in full sentences, using the question to help you form your answers.

Challenge – Can you come up with your own question based on the video for your parents to answer?
